

**Just Press
the button.**

"I can help you."

**Your Assistant answers,
finds out what you need,
and calls...**

**Friends,
Neighbors,
Family**

Rescue

Police

Fire

Take a LifeGuardian home for safety, security and peace of mind.

To make it easier and safer for patients going home, we suggest the LifeGuardian Personal Alert System, provided free by special arrangement.

LifeGuardian works like a nurse-call button.

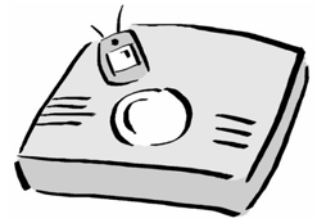

In seconds, one press of the button brings the voice of a friendly, reliable Personal Assistant to the console's hands-free, two-way intercom to find out exactly what you need 24 hours a day, 7 days a week.

You get the exact help you need - fast.

Your Personal Assistant has all necessary patient information, and will instantly contact friends, neighbors, family, or medical staff. If the patient cannot respond for any reason, help will be sent immediately. Either way, your Personal Assistant stays on the line until help arrives.

The console plugs in to any phone line, and is easily set up in less than 10 minutes. The wireless, waterproof button can be worn on belt, wrist, as a pendant, or kept anywhere nearby.

LifeGuardian is free for 30 days with no obligation.

After 30 days, if you no longer need it, simply return it.

Help when you need it, peace of mind when you don't.

Thousands live safely, securely and independently with LifeGuardian at their side. You can too!

Our gift to you...safety and peace of mind.

This Certificate entitles the holder to 30 days **free monitoring service, free account set up, plus free shipping** of the LifeGuardian personal alert system with our compliments.
